ABOUT US

Krzysztof Białobrzewski, owner of PAteam and the gafer.pl brand, is a live sound engineer. At the beginning of his career, the accessories he used were not available in Poland so he started his own commercial activity. Krzysztof's priority from the beginning has been high quality! But products that meet quality expectations are expensive. Not a week went by without a request for a cheaper gaffer tape. To meet customers' expectations, gafer.pl was created. A brand of excellent quality products dedicated strictly to the stage industry, yet cheaper than those available on the market at the time.

gafer.pl

TAPES

The base product of the gafer.pl brand is, of course, gaffer tape – a black, matt, fabric tape measuring 50 mm x 50 m. It quickly turned out that one type of tape in only one size was not enough to meet the industry's expectations. Therefore, our tape range has now been expanded to 8 sizes, in 13 colours for gaffer tape, and 2 sizes, in 4 colours for PVC tape.

GAFFER TAPES

The products of the gafer.pl brand are of excellent quality and are dedicated to the stage industry. Our gaffer tapes have a matt finish, are made of fabric, can be torn by hand and leave no residue on the application surface. Here is a brief introduction to our products.

The gafer.pl and gafer.pl max tapes are typical, high-quality gaffer tapes. These models differ only in the strength of the adhesive. We estimate that the adhesive in the max version is approximately 30% stronger. They are available in black or white and in four sizes.

FLUO TAPES

Another type of premium version tapes are pro fluo and pro mat. These can be purchased in four sizes, eleven colours, including five bright colours that glow under UV light. Due to their coating and material, they are ideal as descriptive tapes. Thanks to the wide range of colours, they are ideal as spikes on the stage and equipment, for example. We also sell an economical version of the fluorescent tape in four colours and four sizes. We recommend it for on-stage spikes.

GLOVES

Gloves from gafer.pl have been designed with the features needed when working on stage. A priority shared by all models is the optimum hand fit, which makes manual work possible. In addition, all models have a touch screen sensitive function for operating touch screens, e.g. on smartphones. They are equipped with a hole reinforcement so that they can be hung on a glove holder or a carabiner. They have strong double stitched seams in strategic places and terry material to wipe away the sweat.

XTRA LITE

The xtra lite gloves are lighter version of the lite model. Gloves are made of perforated material and with an elastic cuff (no hook and loop fastening). They are perfect for hot days.

LITE

The lite gloves are thin, flexible and breathable, yet durable and extremely comfortable. The model is ideal for light and high-precision manual work, especially during the summer.

MAX

Gloves max are the most universal model of gafer.pl gloves. They will work perfectly for manual work, but at the same time provide protection not only from dirt, but also from fingerprints or skin damage.

FRAMER

Gafer.pl framer gloves are the equivalent of the grip model "with cut-off" glove tips on the thumb, index finger and middle finger. Made of flexible and breathable material, covered with silicone net on the inner part.

gafer.pl

GRIP

The grip gloves are characterized by a non-slip silicone net, which increases grip. They are made of flexible and breathable material, which is a guarantee of comfort.

gafer.pl

FLASHLIGHTS

Designed to meet all the needs of those working on stage, e.g. with red light, but also to be powered by the most common batteries (LR6/AA), which every technical team has in their case. There is no room for coincidence – everything has been thought out and designed in an optimal way for our industry.

1-CELL AA LED HEADLIGHT

The greatest advantage of the headlamp is the freeing the hands. It is worth having it. Of course, provided that it is reliable and that it works for a long time without having to replace the battery. Exactly this is the new gafer.pl LED headlamp!

2-CELL
AA
LED
FLASH
LIGHT

Three lighting modes – strong, medium and strobo are available. Protection against dampness and dustiness is due to the rubber seal securing the diode and access to the battery. However, one-hand use is facilitated by a reliable, push-button switch for the flashlight and for those interested in the case/cover/belt holster.

1-CELL AA LED FLASH LIGHT

The light source in the gafer.pl flashlight is the CREE XPE LED. It consumes little energy, thanks to which it works for over 10 hours, even with the most powerful lighting option. It has three lighting modes: medium, strong and stroboscope.

FLASHLIGHT BELT HOLSTER

Cover for gafer.pl LED flashlight in the form of a belt holster.
Compatible with gafer.pl LED AA flashlight and gafer.pl LED 2xAA.

HOLDERS

We are also very proud of our wide selection of, often original, accessories such as gaffer holders, gloves holders or zip-tie holsters, rubber cable ties, carabiners and much more. Each of these products is a solution designed with reverence by a person who works on stage, valuing the voices of colleagues in the industry.

ZIP-TIE HOLSTER

Thanks to our gafer.pl zip-tie holster you'll never have to worry about losing your precious cable ties, because they'll be always by your side!

gafer.pl

GAFFER HOLDER

Comfortable leash on the spring hook for hanging gaffer tapes so that they are always at hand. Easy and convenient tape assembly.

Includes a spring hook for lanyard fastening.

STRING HOLDER

Handy and functional string for hanging smaller gaffer tapes. Perfect to use with 12 mm width tapes.

Carabiner included.

GLOVE HOLDER

With a glove gafer.pl holder your gloves will always be at hand.

The handle consists of a very strong metal clip, a short durable lanyard with a comfortable and strong spring hook.

gafer.pl

GLOVE CATCHER

A new, economical, widely spread gafer.pl glove catcher.
Thanks to it, your gafer.pl gloves will be at hand.

CARABINERS

Our products are simply so fantastic that it's a shame when they are lost or not used. That's why we've taken it upon ourselves to expand our product range to include accessories that help you use the products we sell. So that they are always ready to use.

gaffer.pl

CABLE TIES

We offer several products that help in cable management including: professional gafer.pl hook and loop tie, rubber cable tie T-fix type and nylon zip tie

NYLON ZIP TIE

Tie wraps, cable ties made of nylon.

The types, ties and wraps are characterized by a very high tear resistance. Perfect for any installation work, on stage as well as on film, TV or other sets.

RUBBER CABLE TIE T-FIX TYPE

A rubber band, which is ideal for holding, gripping, tying cables, but also other small items for trusses, tripods or cords. Perfectly known by theater and stage technicians, installers and fitters around the world. Reusable wristbands. Packing of 50 pieces.

HOOK & LOOP CABLE TIE

Professional gafer.pl hook and loop tie, band equipped with a description field, which facilitates identification, and a buckle that facilitates the process of strapping the cables. Designed for repeated opening and closing.

For easier identification of the length of cables or their type, the tie is available in five colors: red, green, blue, yellow and black and three lengths: 260 mm, 400 mm i 550 mm – each with a width of 25 mm.

MARKERS

The latest gadget from gafer.pl are markers in two options. A mini marker which can be clipped onto a bundle of keys or a backpack so that it is always at hand! Then there is the acrylic version in bright colours dedicated to writing on black gaffer tape.

MINI PERMANENT MARKER

The handy mini marker allows you to write precisely on most surfaces. With gafer.pl mini markers you can be sure that the markings will remain intact for a long time!

gafer.pl

ACRYLIC MARKER

Our acrylic marker is a handy and extremely durable marker which can be used to write on dark substrates. Available in silver and white colour.

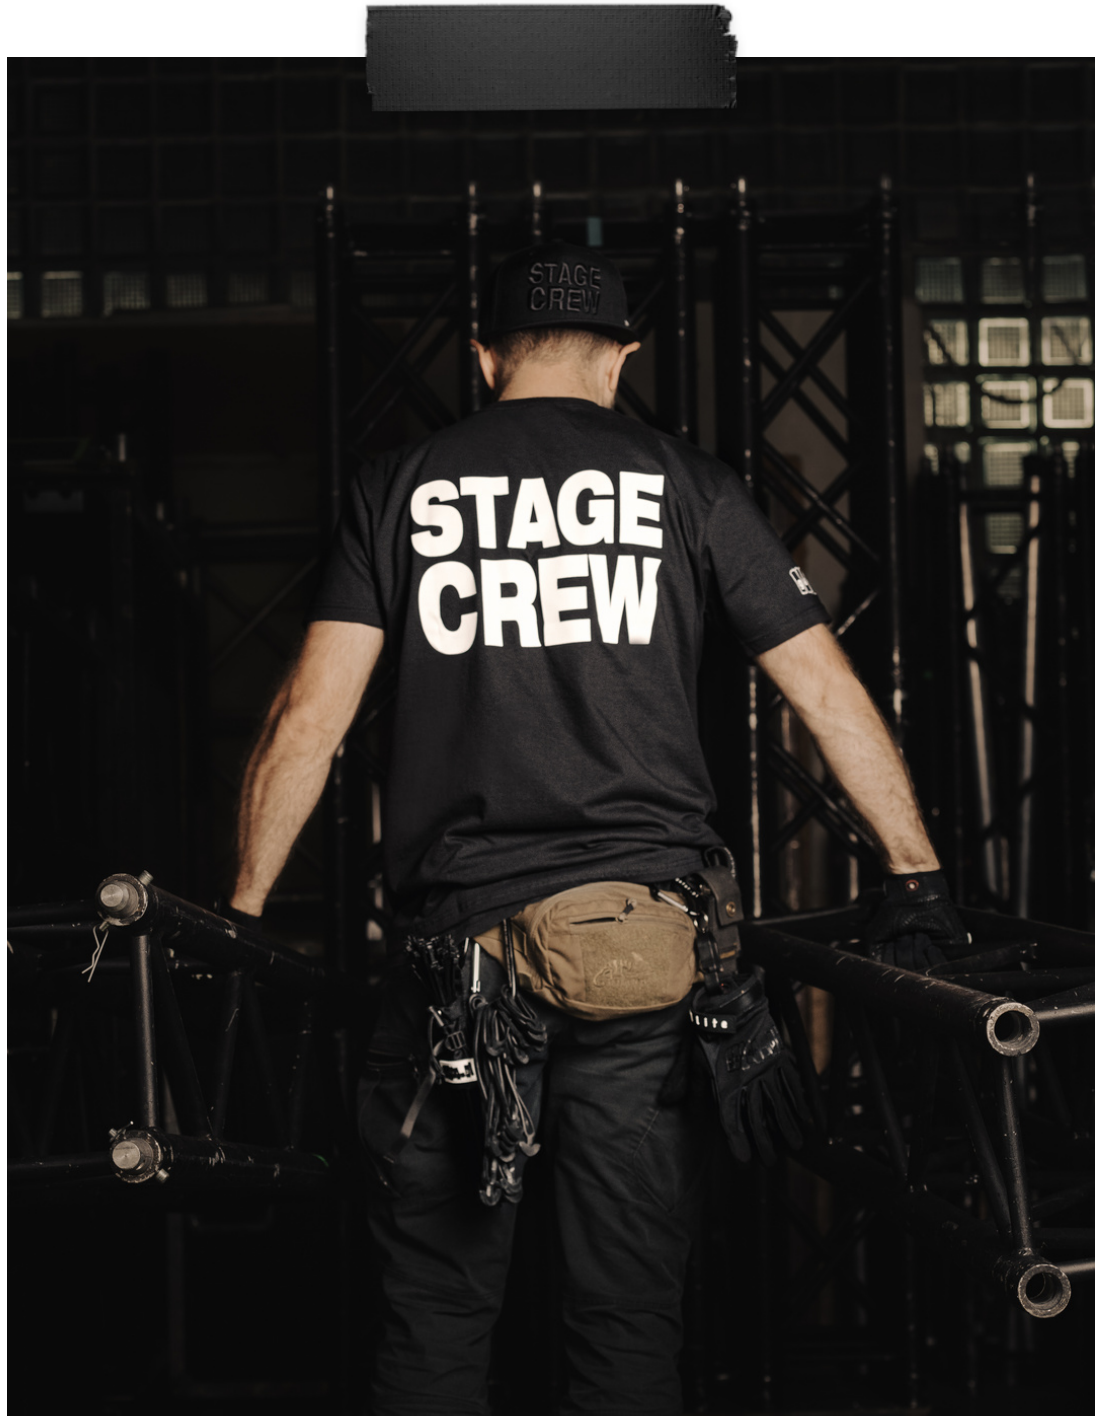

OUTFIT

The last, but not least, product category is gafer.pl's outfits: t-shirts, sweatshirts, sleeveless jackets, snapback and winter caps. All with the STAGE CREW logo, as we are proud to be part of it!

gafer.pl

STAGE CREW 2.0

Well known gafer.pl STAGE CREW T-shirt in new, improved version. Very high durability and quality. The black T-shirt is made of cotton, which ensures a pleasant and natural feel. Ideal for every stage technician!

gafer.pl

STAGE CREW F*** OFF 2.0

Black cotton t-shirt from gafer.pl in version 2.0. Higher quality and durability. Created by people of the scene for people of the scene.

Directness and uniqueness accompanied us during its design. Now they will accompany you when you work in a t-shirt from gafer.pl.

STAGE CREW F***OFF SNAPBACK CAP

Black, woolen-acrylic six panel snapback cap out of gafer.pl's STAGE CREW FU*K OFF collection. One size fits all thanks to elastic strap on the cap's backside. Can be also used to mount the cap alongside backpack or belt.
